E NEW BETTING PAVILION AND OTHER IM-PROVEMENTS.

UNPRECEDENTED DEMAND FOR STABLE ROOM-ORDER OF STAKES.

The new betting pavillon at Jerome Park is the largest single structure of the kind in the world. Its dimensions are 150 by 200 feet, it is neat and substantial, well ventilated, perfectly lighted, and will accommodate 100 bookmakers, a score of mutual machines, and as many Rummells as the public cares to support in the auction pool business. pavement is made as smooth as asphalt by a grouting of cement. Deep guiters collect the drip from the roof and carry it off through tile drains. One corner of the shed is within ten feet of the old carriage enof the shed is within ted feet of the out carriage en-trance, the slope having been dug away to make room. A thick retaining wall of brick with an ornamental coping of bluestone reaches from the gate to the grand stand, serving the double purpose of supporting a new carriage road and protecting the eastern side of the pavilion from assault. The entire arrangement is as perfect as modern ideas encouraged a long bank account could make it. No expense has been spared. The management gave its genial superintendent. Mr. Barretto, carte blanche, and under his careful eye its funds have been wisely expended. The public will scarcely recognize the place when the gates are thrown open on October 2 for the fall meeting of the American Jockey Club. Banks of flowers fill the spaces between the paved walk and the grand stand, and the turf lawn is green and

The betting privileges remain under the control of James E. Kelly, whose recent trouble with the Turf Alliance at Sheepshead Bay left a bad taste in the mouth of the public. It is earnestly hoped that to future Mr. Kelly will employ more tact than he displayed on that occasion. Let the American Jockey Club have a clear understanding with the bookmakers before its meeting begins. It is understood that there will be no place mutuals. This is not fair. The Turf Alliance, in its bold aftempt to discredit the mutual system of speculation, abolished place machines at Gravesend, because investors found in them far better odds for a place than the beok-makers dated to offer, and the competition was hurt-ful. The meeting began with four straight machines, but the public cared little for straight mutuals, and the machines were idle. On Saturday two were removed, yet notwithstanding the size of the crowd and the extent of the betting, the remaining pair easily took care of all that the people wished to 8 p invest in them. If there must be discrimination, let the straight machines be put away, and give the public a chance to get decent odds on a horse that runs first or second. Here is an opportunity for Mr. Kelly to ingratiate himself with race-goers. Let him insist on having place mutuals at Jerome Park, no matter what becomes of the straight machines.

A rich and attractive programme has been arranged by Mr. Wheatly. The meeting begins on Tuesday, October 2, and it is announced positively that there will be racing every day, Sunday excepted, until October 13. No stress of weather will be permitted to cause a postponement. New stables have been built, yet so great is the demand for boxes that Mr. Earretto will have to go outside the grounds to find room for all the horses that want to take part in the races. Following is a list of the stakes in their order: First day-Tuesday, October 2: Nursery Stakes; two-yearolds; \$100 cach, \$1.250 added; six furlangs. TEMPERANCE MEN STRICT WITH FARMERS.

The American Temperance Union began the sea-son of fighting against High License at Chickering Hall yesterday. The meeting was chiefly interesting on account of the utterances of W. Martin Jones, the Prohibition candidate for Governor of this State, The president in opening the meeting said that last year's meetings had been conducted at a loss of more than a thousand dollars to the managers, and appealed for more liberal contributions. Mr. Jones ok for his text an extract from a book of Doctrines of Discipline of the Methodist Episcopal Church, edited by Eishop Merrill, which has just been published and not yet put on the market. He read

He read Article 5 of the Appendix, on page 351, as follows: We approve the action of the lay electoral conference of California, condemning the raising and selling of grapes for the manufacture of fermented wines, and think the time has come for a broader utterance upon this subject. We warn our members against raising and selling, not only grapes but also other fruits, hope and grain, for the manufacture of alcoholic liquors, as inconsistent with the Christian profession, because of numbing to the conscience and hurtful to the cause of the lectures of the lectures of the lecture of the winter's supply of coal. OR DISGRACE IN THE PENNANT RACE. Another month and the bats will be thrown into the corner, the baseballs packed away, and the players will hie themselves to quiet corners of the universe and little will be heard of them until the birds come North again. The regular championship season will close in about three weeks, but the teams will continue to play exhibition games until the frost forces them to leave the diamond field. No definite aprangements have yet been made about the world's championship series between the New-York and St. Louis clubs, but it is probable that the series will consist of only nine games. Three of that number will undoubtedly be played at the Pelo Grounds. Keefe, Welch and Ewing will get all the rest possible during the remainder of the League season to get them in good condition for the fight for the championship

of the country. The Giants have not won the League championship, but they are so near the goal that it is all but impossible for them to be overtaken. While the local club has but four more victories than Chicago, it has nine less defeats, and it is defeats that count in this stage of the race. Detroit club is only a few points behind Chicago, while the Boston and Philadelphia nines are close upon Detroit's heels. The Philadelphia team has a good chance to secure second place and will do so if the nine continues to play in the same way as it has during the last month. The Philadelphians always spuri toward the close of the season and are doing the same thing again this year. A season or two more and The New-York the Quakers will win the pennant. nine now has but fifteen games to be played, and three of them will be played at Washington to-day, to morrow and Wednesday. On Friday the ball will again bound on the Polo Grounds, and after twelve or thirteen games with the Western clubs, the pennant season will be brought to a close. The Indianapolis club seems destined for last place. How such a fine team could fall to get a better position is one of the enigmas of baseball. The League record to date is as

BROOKLYN GETS A GOOD PLAYER. Cincinnati, Sept. 23.—After to-day's game John Corkhill, the great centre-fielder of the Cincinnati club, was released to Brooklyn. The price paid for his release by President Byrne was \$3,500. For two seasons past Corkhill has been anxious to get away from Cincinnati and as the local management thought he did not take interest in the success of the club, it was decided to let him go. The Athletics also made a bid for his release and a slight difference in the price to be paid alone stood in the way of his transfer to Philadelphia. Corkhill left with the Brooklyns to-night for Kansas C ty. He will be utilized in centre field. Fennety will also be disposed of in a few days as there are now two clubs dielering for his release. President Storn has in view a heavy hitting outfielder to take Corkh H's place.
